

## Svar på frågor från projektet till iSpring, juni 2015

### 1) How can iSpring Quizmaker stand as a solution för digital exam at campus with BYOD or with the universities computers?

Quizzes created with iSpring can be uploaded on the Web and shared as a web content. They can be also published as SCORM 1.2/2004 packages to LMS, if it is used.

### 2) I see that you have integration/API with some LMS. Can you confirm which LMS?

Yes, we conducted compatibility tests with several LMSs and posted them on our website [here](#).

### 3) Can a university use iSpring quiz maker as a stand alone solution for digital exam? Even high stake exam (long essay's)? What advantages gives iSpring Quizmaker for the process of grading digital exams et cetera?

Yes, you can provide your professors with licenses to create quizzes for testing purposes. There is "Essay" question which allows you write long essays. As for grading, the grading process is rather flexible and you can customize passing score or get rid of it and score the results manually.

### 4) Discription about the 23 questiontypes, this website:

<http://www.ispringsolutions.com/docs/display/iq/graded+quizzes+and+surveys>

Regarding the project page, I am sorry to say that but I could not understand the information there since I do not speak Swedish. Of course, if you have any questions, please feel free to contact me, I am here to help.

Best Regards,  
Vladimir
