NORDUnet 2017 tender for a Media Management Solution

The NORDUnet 2017 tender for a Media Management Solution:

NORDUnet currently operate and deliver a Media Management System Service based on the Kaltura On-Prem Edition, to the NRENs in Denmark (DeIC), Finland (CSC/FUNET) and Norway (UNINETT) and their connected institutions. For Sweden (SUNET) the Service is provided using the Kaltura SaaS Edition.

The scope of this procedure is to enable NORDUnet to purchase a Media Management Solution that is a managed on premise installation, that has the capability to be multi-tenant, to allow NORDUnet and subsequently the Nordic NRENs to resell the service to their connected and member organisations. The solution is to cover the full scope of the existing services as described above.

NORDUnet is inviting potential suppliers of Media Management Solutions to bid for a contract according to the requirements put forward and developed throughout the process.

The Tender is published under OJEU TED publication number: 2017/S 026-046602.

Below you will find the tender process and relevant documents as they are release during the process.
